

WARNING

Omega Pacific climbing products are designed specifically for climbing, mountaineering, and technical rope work.

Omega Pacific steel carabiners are designed and tested specifically for fire, rescue, industrial and technical rope work. The user is responsible for the following NFPA, OSHA, ANSI, and all other applicable state and federal regulations regarding the use of these products.

All of these activities are inherently dangerous and present the risk of **SERIOUS INJURY** and/or **DEATH**.

This product information contained in catalogs and brochures is not a substitute for qualified personal instruction. Any person using Omega Pacific products is responsible for obtaining qualified instruction on the proper use, techniques and limitations involved in such use.

Inspect all equipment before each use and destroy any gear that is damaged, worn or does not pass inspection. Any person using Omega Pacific products is responsible for the proper care and maintenance of these products.

IMPROPER USE, ABUSE AND/OR LACK OF PROPER MAINTENANCE WILL INCREASE THE RISK OF SERIOUS INJURY OR DEATH.

Any person using Omega Pacific products in any manner assumes all risks and accepts full responsibility for any damage or injury, including death, which may result from the use of any Omega Pacific product.

Any litigation involving this product will be in Washington State pursuant to Washington law.

The Distributor-wholesaler-retailer is responsible for providing this warning information to the customer.

This warning must accompany all shipments/sales of Omega Pacific products.

Snow Anchor - 36"

It Is Possible

Omega Pacific

Snow Anchors

Our snow anchors were designed from the ground up exclusively as anchors in snow fields and glaciers.

- Extruded from 6000-series aluminum, the anchor-shaped cross section holds better in snow than any other picket available.

- Zero sharp edges insures they won't snag packs, jackets, or shred ropes.

- A beveled spike on one end provides easier, speedier placement even in an avalanche debris field.

- They're color-coded by size for quicker, simpler identification. High visibility yellow for the 24" size and bright red for the 36" size make them easier to spot, as well as easier to manage anchors, even during a storm or while wearing dark eye-protection.

Part #	Description	Material	Length mm/inch	Weight grams/ ounces
SNANC24	24" Omega Snow Anchor	6000 -Series Aluminum	610 / 24	526 / 19
SNANC36	36" Omega Snow Anchor	6000 -Series Aluminum	914 / 36	774 / 27.3
